

DuraSoy ONE

Paint & Primer

Non Toxic Interior & Exterior Paint

- ✓ Industry leading green chemistry utilizing plant-based byproducts that replace and replicate performance characteristics of toxic petroleum solvents without toxins or safety hazards.
- ✓ No VOC, no toxic offgassing, no crystalline silica, and no solvent odor.
- ✓ Fast dry times usually within 1 hour for quicker recoats and return to service.
- ✓ Color match to virtually any major paint brand for unlimited color options.

Selecting Your Sheen

Velvet: A high side flat and low side eggshell. A washable finish that is also ideal for hiding surface imperfections.
Semi-Gloss: A higher sheen, tougher finish for extreme use or wet areas.

Description

DuraSoy ONE Paint & Primer is an ultra premium non toxic paint formulated with our proprietary plant derived bio-based chemistry that replicates petrochemical performance without toxins, solvent odors, or safety hazards.

The bottom line is you want the most durable paint that can achieve the color you desire, is easy to apply, saves labor time, is free from harmful odors and has zero toxic ingredients at an affordable cost.

DuraSoy ONE is a one step paint and primer that uniquely balances the performance advantages of an oil based paint and a water based 100% acrylic latex paint. It is tinted with our no VOC colorfast universal pigments that can be matched to virtually any color deck for unlimited color options.

This advanced durable chemical technology is engineered for applications on a wide variety of interior or exterior surfaces, and for residential or commercial projects. Its high solids, thick creamy viscosity eliminates sagging and spatter problems, so you can apply more solids and less water on your substrate. This means more coverage, less waste, less material use, less labor and less costs.

Finish your painting project by easily and quickly cleaning your valuable tools with soap and water. You now can enjoy outstanding performance without compromising the welfare of the building occupants or the environment.

Technical Data

Coverage: 350 - 425 Sq.Ft./Gallon
 Typical Dry Time: 1 Hour
 Installation Temperature: 45°F - 100°F
 Regulatory V.O.C.: 0 g/L
 Bio-Based Content: <20%
 Recycled Content: <20%
 Average Solids: 45 - 52%
 Pigment Volume Concentration: 0-30%
 Velvet Sheen: 4-7 Gloss Units @ 60°
 Semi-Gloss Sheen: 35-70 Gloss Units @ 60°

Application Equipment Choices

Airless Sprayer: Tip Size .015 - .021.
Brush: High Quality Nylon or Polyester.
Roller: Lint Free, Microfiber, or Foam at 1/4" to 1" Nap depending on texture or finish.

Non Toxic Ingredients

100% W.B. Solvent Free Acrylic Dispersion, 100% Bio-Based Emulsion Mixture, TiO2- (Not in Accent Base), Crystalline Silica Free Mineral Filler, Water, Natural Preservative, Solvent Free Surfactants, Solvent Free Thickeners.

No Red List Chemicals

Part #'s

D2-6000 Series DuraSoy ONE Velvet Base
 D1-6100 Series DuraSoy ONE SemiGloss Base
 Available in 1, 5, 55 gallons

INTENDED USES:

- Drywall
- Stucco
- PreCast Concrete
- Masonry Block
- FRC Cladding
- Wood

GREEN BUILDING ATTRIBUTES:

- Low Emitting Material
- Renewable Resource
- Recycled Content
- Innovation in Design
- Regional Materials
- Material Reuse

PROFESSIONAL ATTRIBUTES:

- One Step Prime & Paint
- Color Deck Match
- Green Building Compliant
- No Toxic Exposure
- No Solvent Odors
- High Spread Rates
- Easy Cut-in & Trim
- Fast 1 Hour Dry Time
- Less Material Use
- Fast Water Cleanup

SHEEN OPTIONS:

Velvet (High Side Flat)
 Semi-Gloss
