

EcoFast 500 HD Cleaner & Degreaser Product Data Sheet

Description

Eco-Fast™ 500 Heavy Duty Cleaner & Degreaser is a powerful concentrated and 100% non toxic plant-based cleaner formulated for difficult cleaning tasks. It can be used in concentrate form for the most difficult jobs or diluted with water for application specific cleaning tasks. Eco-Fast™ 500 HD Cleaner has incredible oil, grease, carbon, and soil lifting power, yet contains no butyls, abrasives, or alkalines. It is the ideal all purpose power cleaner used for tough construction, industrial, automotive, marine, and household cleaning tasks.

Our unique chemistry is formulated to a neutral pH, so it safe to use on virtually all surfaces without affecting the substrate pH which is critical when preparing a surface for painting, staining, coating or sealing. Unlike acidic or caustic cleaners, EcoFast 500 HD will not erode your substrate finish over time especially if you perform daily maintenance cleaning. Our bio-based cleaning surfactants have petrochemical power solvency, but without the hazards or damage.

So whether you have heavy duty grease removal or simply need to remove soils on upholstery or carpet, you now have one product that is powerful yet safe to handle all your cleaning or degreasing needs.

Intended Uses

Used to clean, degrease, restore and maintain virtually any substrate surface material. It may be used in spray, mop, or power washing applications. Heating the product will increase efficacy and speed. Effective and safely clean:

**Concrete • Masonry • Stucco • Siding • Greying Wood
Stone & Tile • Laminates • Carpets • Canvas • Upholstery**

APPLICATION NOTES: Heating up to 180°F accelerates efficacy. Prespray and let dwell for 2 minutes before power washing or scrubbing for difficult cleaning tasks.

Performance Features

- No Fragrances Added
- Highly Concentrated
- Multi-Surface Compatible
- Multi-Use Power Bio-Solvent
- Neutral pH
- Great for Heated Powerwash
- Easy Rinse Formula
- No Acid or Caustic Hazards

Green Building & Sustainability Features

- Zero VOC Emissions
- LEED v4 Transparency Report
- HPD Transparency Report
- Renewable Resource Content
- 100% Biodegradable
- Produced in AZ, USA
- No Red List Chemicals
- Green Cleaning

Technical Product Information

APPLICATION TOOLS & EQUIPMENT:

Protection: Gloves and goggles.

Manual Applicator Choices: Spray bottle, pump sprayer, rags, sponge, deck brush, cleaning cloths or towels.

Mechanical Equipment: Pump sprayer, floor machine with black stripping pad, power washer, wet vacuum.

NEUTRALIZATION: None Required.

OUR INGREDIENTS & SUPPLY CHAIN PROCESS: A Commitment to Sustainable Chemistry.

ESP evaluates and screens every raw material using a third party service partner comparing ingredients against the most current GreenScreen® and Red List Chemical databases prior to launching any R & D product development project. Additionally, every supplier agrees to participate in our full ingredient transparency program to ensure every ingredient they use in their material down to a minimum of 1,000 ppm, can be screened, then submitted for a LEED v4, Health Product Declaration (HPD), and other "Green Building" program reports.

TECHNICAL DATA:

Primary Chemical Type:	Soy Based Mixture
pH:	7.5 - 8 pH
Flash Point:	Non-Flammable
Freeze Point:	32 °F
Dilutable:	Yes, up to 30:1
Odor:	Mild-No Fragrance
Bio-Content:	>34%
Biodegradable:	Yes
VOC Content:	0 Grams/Liter

Store at room temperature. Keep from freezing or extreme heat.
